We make a place without  
hunger, where people live  
together in harmony  
toward child-friendly  
environment and self-  
reliance for the community.

# MESSAGE FROM GOVERNING BOARD

Ensuring the rights of every child to life, education, development, and protection are vital to a nation's growth and success. It is an obligation for everybody, includes parents, communities, civil society, private sector, media academics, and particularly every government to respect, protect and fulfill children's rights. Gugah Nurani Indonesia (GNI) works in 10 provinces in Indonesia to ensure that the rights of all children, including those most marginalized and disadvantaged, are realized.

At the level of overall partnership framework, we have further strengthened our alignment with GNI's global strategy and continue to implement CRC (Child Right Center) & CDC (Community Development Committee) in a comprehensive manner to enhance accountability and to make programs and projects sustainable.

Concrete steps have also been taken to support projects and programmes jointly with other stakeholders, hence creating a harmonized approach with smoother operation and administrative processes in order for greater focus to be given to project implementation. GNI looks back at a history of more than nine years of partnering with government and other institutions, reaching thousands of children with development and humanitarian assistance. In response to the country's increasing capacities and economic growth, the areas of collaboration have gradually shifted from service delivery at community level towards more strategic policy engagement with government partners.

Today, GNI is working with institutions on generating knowledge and evidence to identify those children who are excluded from the country's overall progress; advocating for better policies and programmes for children; providing high level technical assistance to government and other partners, testing models and innovations that can offer solutions to long-lasting challenges affecting children; and forging partnerships and networks to advance children's rights. While the scope of the GNI programmes may have varied over time, our mission and core value have been aligned with it since the beginning: GNI stands on Indonesia to make a place without hunger, where people live together in harmony toward child-friendly environment and self-reliance for the community.

Sincerely,

**Yongki Choi**  
Governing Board | Yayasan Gugah Nurani Indonesia

# MISSION

Gugah Nurani Indonesia exists to make the world a place without hunger, where people live together in harmony.

Gugah Nurani Indonesia respects the human rights of our neighbors suffering from poverty, disaster and oppression, and helps them live self-reliance by encouraging them to have hope.

# CORE VALUES

## UNIVERSALITY:

We work in any place where there is a need, regardless of race, religion, ediology, and beyond geographical constraints.

## CHILD RIGHTS:

We place a top priority on the rights of the child.

## PARTICIPATION:

We mobilize and organize local volunteers to participate in developing their communities. We work with professionalism, with transparency in our financial and operational reports.

## TRANSPARENCY:

We maintain professional accountability and transparently report on the status of our projects and finances.

## SUSTAINABILITY:

We promote self-reliance and the sustainable development of individuals, families and communities. We prioritize children's rights above all.

## HARMONIZATION:

We create sound global citizenship that encourages people to respect one another and live together in harmony.

## PARTNERSHIP:

We work in cooperation with our local partners who share their community development goals.

## SHARING VALUES:

We encourage as many people as possible to join Good Neighbors as sponsoring members to participate in our work.

# Gugah Nurani Indonesia BRANDING

Branding of GNI focus on United Nations Convention on the Rights of the Child (UN CRC), Networks, and Advocacy. GNI runs professional and well developed projects.

## UN CRC

(Protecting Children's Rights)

With the UN Convention on the Rights of the Child as our core principle and steadfast awareness of human dignity as our background, GNI supports the stringent protection of Children's Rights.

## NETWORK

GNI encourages local communities to participate in our projects to instill self-sustaining community and to establish local partners and governance for new on-going networks.

## ADVOCACY

GNI runs campaigns, public activities, and seminars to raise awareness on the importance of our work to the government and to the public.

Knowing the importance of the partnership, GNI is always opened to start and initiate to work, cooperate and collaborate with all party whose mission and mission is aligned each other.

# EXECUTIVE SUMMARY

Building partnerships is one of the basic values adopted by GNI in implementing all community development programs. GNI believes that as an organisation, GNI will never be able to work alone in the community. To that end, GNI always invites all stakeholders to jointly build hands of communities based on their needs.

The principle of partnership should be the soul of all GNI staff both at the national level and those at the field level. They are not recommended to conduct community development activities without the involvement of other parties either from the government, the private sector or from the community itself.

By partnering, GNI can transmit the values that embrace to partners so that it becomes a universal value in conducting community development activities. It is admitted that working in partnership is not always easy. It is because working in partnership starts with both clearly understanding and appreciating each other's unique strengths and competitive advantages. Without this understanding, it is quite difficult to work in partnership.

As an Organisation who have been working in the community around 10 years, and therefore GNI does understand how to engage with Government, community leaders, private sectors as well as with other related stakeholders. The partnership that has been made all this time has enabled GNI to leapfrog the barriers.

Strategic partnerships aren't just an emerging trend in the community development sector - rather, it's emerging as a new core competency for Organisation to stand and lead across its business. Knowing the importance of the partnership, GNI is always opened to start and initiate to work, cooperate and collaborate with all party whose mission and mission is aligned each other.

Sincerely,

**Setyo Warsono**

Chief Executive | Yayasan Gugah Nurani Indonesia

# PROJECT HIGHLIGHTS

**GNI contributes to the sustained well-being of children by working on four levels:**

- Children: empowering children, especially the most vulnerable, with good health, basic abilities and skills (including literacy, numeracy and essential life skills) that will enable them to be productive, contributing citizens and agents of change throughout their lives.
- Households and families: improving household resilience, livelihood capacity and caregiving capacity. Caregiving includes physical, psychosocial as well as issues of resource allocation and gender equity within households to ensure that increased income and assets lead to improved child well-being for both boys and girls.
- Community: strengthening the resilience and capacity of communities and partners to respond to present and future challenges to child well being, including disasters.
- Enabling environment: working to ensure that systems, structures, policies, and practices (at local, national, regional, and global levels) support and protect the well-being of children, especially the most vulnerable and enable meaningful participation of children.

 The Visit of Indonesian Social Ministry in Manggarai Timur, NTT was Facilitated by GNI Borong CDP

## INCOME GENERATION

### Accelerating Sustainability Economic Growth

GNI takes a socio-economic approach that encompasses a wide range of production and consumption by community-based actors including cooperatives, self-help groups and social enterprises in order to achieve a sustainable community & child well-being.

## WATER, SANITATION & HEALTH

### Sustainable Clean Water Access by Community based Management

GNI forming the Water Management Committee to conduct Clean Water Access project and also invite the staff of Sanitarian from local government health department to give socialization about Total Sanitation Based on Community and gives some explanations about water quality check also provide several alternative solutions to cope with high bacterial contamination, such as boiling water to kill bacteria and inactivates viruses or providing chlorine in the well or in the water reservoir to sterilize water, and always do hand washing with soap and clean running water.

 Distribution of Deworming Drugs & Handwashing Soaps at SDN Pantai Bahagia 03, GNI Bekasi CDP

## EDUCATION & PROTECTION

### Investing in People to Build Human Capital

Since 2016, GNI's efforts have been focused on providing capacity building for all related people to implement the programme. GNI have conducted capacity building activities in the forms of: disseminating programme objective to all stakeholders, training on mainstreaming the leadership & organization knowledge in development GNIs, training on development of outcome indicators, and training on action GNI formulation together with community.

Most of these formal and informal groups are in the area before GNI arrived and will remain there when GNI phase out. One of GNI's most valuable roles is to help key groups come together to focus on local child well-being priorities, help them find forms of collaboration that make sense in context then strengthen their capacity if necessary. This enables the groups to address child well-being challenges effectively both in the near term and in the long term – well after GNI's presence in an area ends. Local ownership and capacity are critical to sustain the improvements in child well-being.

## PARTNERSHIP & NETWORKING

### Sustaining Focus on Partnerships for Better Development

Gugah Nurani Indonesia's flexible approach to local partner is rooted in its commitment to greater and more sustained impact in the lives of children. Many different stakeholders take part in the different stages of a child's life.

Gugah Nurani Indonesia seeks to work effectively with a wide range of groups and organisations in ways that strengthen and empower them. GNI seeks to build on its own strategies, roles and capacities to leverage far more resources and action for child well-being. Partners can include government, churches and other faith-based organisations (FBOs), non-governmental organisations (NGOs), community-based organisations (CBOs), local businesses and informal community groups – including groups of children and youth where this is appropriate for age and local culture.

## Education and Protection

 **25,432** Participants

Gugah Nurani Indonesia has provided proper education to the children whose rights of education are deprived due to poverty, child labor, and discrimination.

## Partnership and Network Building

 **1,034** Participants

Gugah Nurani Indonesia became partner with local communities through Community Development Committee (CDC) in every project site. We responded to the needs for good governance of people in an efficient, strategic, and democratic way through cooperation with governments, peer NGOs and UN agencies.

## Health

 **29,622** Participants

Gugah Nurani Indonesia strived to protect the precious lives of children and their families by providing basic medicines, medical services, and health education.

### Humanitarian Relief

550 Participants

Gugah Nurani Indonesia conducted quick and professional relief for those suffering from natural and man-made disasters. We struggled to bridge those humanitarian operations with long-term reconstruction and rehabilitation projects with the aim of reconstructing a stable and resilient community.

### Child Rights Protection

9,164 Participants

Gugah Nurani Indonesia made sure that educational institutes including kindergartens and elementary schools across actively conduct child rights education while launching campaigns against child sexual abuse and other forms of violence in cooperation with the Indonesia National Police Agency.

### Water and Sanitation

4,749 Participants

Gugah Nurani Indonesia improved the access to clean and safe water and provided sanitation to thousands of communities to protect them from daily threats to life.

### Cooperation With Alliance & Coalition

5,419 Participants

Gugah Nurani Indonesia conduct advocacy projects, Cooperation with alliance and coalition such as campaigns, government polices, and seminars to promote our projects and raise awareness of governments or the general public as part of citizenship education.

### Advocacy

12,925 Participants

Gugah Nurani Indonesia mobilized campaigns and developed training programs to protect the rights of socially marginalized people, especially children, women and minorities. We pioneered efforts to end inequality by raising awareness in communities and urging change in society.

### Community Development Committee

330 Participants

Gugah Nurani Indonesia promotes good governance by building the capacity of vulnerable groups, particularly women, to participate in the democratic decision making process of the community by establishing Community Development Committees (CDC), the core actors of projects as they actively participate and provide key decision in the planning, implementation, monitoring and evaluation of all Gugah Nurani Indonesia' development programs.

I will diligently go to school for  
there is no more reason for not  
to; we have nice school building  
that protect us from rain and sun  
beams. Thank you!

# 25,432

Participants

Gugah Nurani Indonesia supported children in our community projects to access better education not only by providing financial assistance –including tuition fee, scholarship, school uniform and supplies– but also to promote facility operation, such as school, toilet, drinking water pumps, and nurse's office construction. In addition, to improve learning process, we provided training for teachers. To improve competency of local community members, we operated literacy workshops and vocational training.

- Programs and Beneficiary:
- Education Infrastructure Development – benefitted 12,975 children
- Education Programs and Curricula Development and Improvement – benefitted 478 children
- Financial Assistance – benefitted 10,417 children
- Rights to Education Awareness Raising – benefitted 1,562 children

# SPECIAL GIFT

to Compang Children at Manggarai Barat CDP

Hello! I am sponsored children of Gugah Nurani Indonesia from Compang Village, Manggarai Barat CDP. We are students from PAUD Nurani Compang. I am happy to finally have school building. Before that, my friends and I used to study at community member's house. We did not have desk or any toys at that time. But now, we have our school building, equipped with toys and books! I feel very happy. The class room is nice. It has a library inside. I have desk to study and educational material too. I will diligently go to school for there is no more reason for not to; we have nice school building that protect us from rain and sun beams. Thank you!

**PAUD Nurani Compang school construction is funded together with Mangosoft, FEBC Happy Jakarta, Kitabi-sa.com, Tunas Muda School, JKS and individual donors.**

## Local Fundraising Project A Center For All, A Village For All

Rawa Badak Selatan is a slump area in North Jakarta. Its educational environment is weak, with 71% illiteracy rate and unemployment rate of nearly 86%. Gugah Nurani Indonesia has been started operating Child Right Center in July 2012 to support residents suffering from poverty and unemployment. In September 2017, Child Right Center was completed, equipped with a computer room, a counseling room for children and teens, and a training room for income generating activities for local residents and integrating with Rumah Belajar Jala Samudera (CSR Program in Education Sector of Jakarta International Container/ JICT).

## Teacher Training Program A Letter From Kulonprogo

GNI was invite the teacher in Pendoworejo Village, Kulonprogo District for training program in September 2017. The training course remind me that a teacher should not only teach knowledge but also support the development of well-rounded individuals. These days, other teachers and I are discussing how to positively influence our students and Indonesia in general. The participants hope that the seeds of education planted in their working area can bring good change for Indonesia start from their community in Pendoworejo Village, Kulonprogo.

## Children's Rights Support Project Story Telling For Protecting Children

There is a very special performing arts group at Gugah Nurani Indonesia, which performs puppet shows in order to help in explaining sexual violence to children and make understand how to prevent and report it. The puppet show is a part of Gugah Nurani Indonesia' worldwide education programs on children's rights, and it's been adapted to the local circumstances of Indonesia in order to be performed in community center and public schools. The puppet shows teach children to be aware of their rights to protect and be safe from any form of violence. We hope to see the program settled in Indonesia school system so it can reach and protect even more children in the future.

We worked to raise awareness among residents about disease prevention through classes/ workshops , Village Health Committee Mobilization and Training and Community Health Worker Training.

# Health

# 29,622

Participants

Gugah Nurani Indonesia established and operated medical facilities, provided medicine, medical check-up and vaccinations service for children and community who did not have access to basic medical services. In addition, we offered nutritious meals to mothers and children under the age of five to reduce infant mortality rates, and worked to raise awareness among residents about disease prevention through classes/ workshops , Village Health Committee Mobilization and Training and Community Health Worker Training.

- Medical check-ups for 10,705 children
- Nutritious meals for 8,126 children and mothers
- Vaccinations and vermicides for 488 people
- Medical facilities for 4,936 people
- Sexual and Reproductive Health (Family Planning) for 1,730 children
- CHW Training and Activities for 263 people
- Neglected Tropical Disease (NTD) Management for 263 people
- Village Health Committee Mobilization and Training ) for 54 people

## Make sure that no one is left behind...

Indonesia Ministry of Health conducted Cuci Tangan Pakai Sabun (Handwashing using Soap) campaign, thus for this activity Borong CDP cooperated with local health center to facilitate the campaign. For month of June, Borong CDP carried out series of activities related to health. Starting from Handwashing Campaign for 353 students in two elementary schools. The children got the chance to practice directly on how to wash hands correctly as well as learning about its importance. While for adults, Borong CDP focused on giving education towards pregnant women and lactating mothers with Socialization of Kartu Ibu & Anak (KIA) or Mother and Child Card. KIA is a government-provided books which consist of health information from the very beginning of pregnancy up to the children 6 years old. The information in book was explained to the participants. Around 123 people attend the socialization. For children under five years old, Borong CDP cooperated with four local health posts to run Feeding project. The project provides supplementary nutrition intake for toddlers and pregnant women. The food provided was cooked and distributed by cadres. Several months after implementation, it is shown that there is an increase of weight from the beneficiaries.

**Mother and Child Card is a government provided books which consist of health information from the very beginning of pregnancy. The information in book was explained to the participants.**

# Water & Sanitation

# 4,749

## Participants

Gugah Nurani Indonesia has built wells, drinking water tanks, and water purification facilities to provide safe drinking water and increase the access to water supply, while adding more restrooms and water treatment facilities to protect the locals from water-borne diseases. In addition, we ensure that the locals participate in this program by creating and getting involved in hygienic community through self-maintained water facilities and managing community-based awareness activities on health and sanitation for children and the locals.

- 80 people get access to the wells, water tanks, and safe drinking water
- 19 people have become WASH Committee

## Clean Water Brings Change in Borong CDP

- 178 people have participated in behavior change program, conducted for sanitation (CLTS, SLTS, PHAST, CATS)
- 1651 people have received basic WASH related kits or material (/equipment)
- 2821 people have attended the Campaigns to improve water sanitation condition

Borong, the capital city of East Manggarai, East Nusa Tenggara Province, has plenty of rainfall due to 8 months of rainy season through the year. However, there is no reliable infrastructure to utilize the rain water for a clean drinking water. The locals drew water from a pond near their village for drinking, where the water was contaminated by mud and livestock excrement, increasing the risk of water-borne diseases. Children struggled to go to school because they had to climb up and down the mountain trails to get water supply all day long. Gugah Nurani Indonesia Borong CDP have built water supply facilities at the most appropriate place under the Community Development Committee (CDC) management and have trained the locals to maintain the facilities independently. As a result, children do not need to climb the mountain to get water anymore and are able to go to school. This has inspired social change to the locals to take more active roles in improving their community.

**“We had to walk over an hour to draw water from the pond. After the water tabs were built, now we can go to school and we do not have a stomach-ache anymore.”**

**GNI Sponsor Children from Borong CDP**

# Income Generation

# 1,488

## Participants

Gugah Nurani Indonesia has conducted various profitable projects tailored to each community, such as agriculture development, managing livestock project, micro-finance, startup support, and vocational training. In addition, we are challenged to make a sustainable social economic development model by applying appropriate technology that reflects the locals' demand, while creating job vacancies through social enterprises and cooperatives.

- 333 participants take part in expanding business opportunities of community members through social and solidarity economy projects program
- 1008 participants take part in enhancing business capacity and entrepreneurship of community-based economic organizations and members
- 5 participants take part in livestock industries program
- 111 participants take part in community enterprise seminar
- 31 participants take part in small businesses program

## Medan Belawan CDP Income Generation Project “Dari Sampah Jadi Berkah” (From rubbish to blessing) Obtaining an Appreciation

Waste Bank Berkah initiated by Gugah Nurani Indonesia (GNI) successfully attained the Best Category Award in the event of Waste Bank Appreciation-North Sumatra Green and Clean 2017.

This award was given to Waste Bank Berkah for its contribution to education, health, and family income increment in Belawan 2 village, Medan Belawan Subdistrict.

- In Education Sector, 2 members of Waste Bank exchanged their balance (IDR 450.000) for children education need.
- In Health Sector, 8 members exchanged their balance (IDR 40.000) for health check-up.
- In Economy sector, Waste Bank Berkah had exchanged their saving balance for household needs for IDR 11.639.000 throughout 2017.
- All transaction and financial report in Waste Bank Berkah have been computed for a transparent administration.

## Cooperative Borong CDP Horticultura Project

Wae Reca-Borong's farmer has struggled to feed their family with monthly earning of less than IDR 40.000. After hearing about the horticultural project, they visited Gugah Nurani Indonesia Borong CDP and joined the project. The members of the cooperative led the entire process from buying bean spawns, to building bean cultivation in order to fix the bean selling price. As a result, their family was aware of their income increased by 80% and they are recently opened a small shop selling beans and vegetables with the profit attained from the project. The cooperative members returned some of the profit as well as the capital to their community for its development.

\*Social economy: An economy that encompasses a wide range of production and consumption by community-based actors including cooperatives, self-help groups and social enterprises in order to achieve a sustainable community.

## Appropriate Technology Integrated Sanitation – Clean Energy Development Program

Children in Bangka Kantar, NTT - Indonesia had to depend on a small oil lamp when they did homework or went to the bathroom because they did not have electricity. Small oil lamps are easily blown out and highly flammable. Moreover, the price of kerosene is so high that the children were always running out of time studying. In August 2017, Gugah Nurani Indonesia, Yayasan Rumah Energi, and Korean Donators built the biomass system, which changed the lives of many residents in the village. The biomass system installed on the biomass tank during the day and turned into light and energy during the night. Residents could use safe head lanterns instead of dangerous and expensive oil lamps. All these biomass appropriate technology adapted to meet the needs of the residents. Currently, Biomass is contributing to continuous job creation in the community as a social enterprise project securing sustainable and accessible energy to people.

## Social Enterprise Sukabumi CDP Profitable Project “Jerky Beef Made of Cassava Leaves”

Pasawahan village is located in the Cicurug sub-district, Sukabumi, and considered as an extremely marginalized area. The villagers are majorly rely (depending) on farming (agriculture) (78% of population), while the rest of the locals are mainly peasants (18% of population). Their sole agricultural commodity is cassava (Singkong; in Bahasa Indonesia) which they harvest from the nearby mountains. The villagers face some difficulties in selling cassava due to low added value of the commodity and high market barriers imposed by middleman. Gugah Nurani Indonesia and the local community have created an innovation by processing the cassava leaves into jerky beef, and subsequently established a social enterprise. We hope that this project will bring hope, as well as ensuring the stable income to the people in Pasawahan.

We support the children who had lost their homes and families to overcome the psychological and emotional difficulties/ burden as soon as possible.

# Emergency Relief

# 550

Beneficiaries

## Landslide Emergency Relief at Pendoworejo Village, Girimulyo Sub District, Kulon Progo District, Yogyakarta support 120 people

Disastrous avalanche on November 29th 2017 has destroyed 8 sub-villages in Pendoworejo Village, Girimulyo, Kulonprogo, Yogyakarta. Local officials(/authorities) such as BPBD, Baznas, Basarnas, Kampung Siaga Bencana, Bankom Renggolawe, Bankom Pandawa, GNI, Polisi (/Polri), TNI, etc directly supported the affected villages by evacuating those area, especially Ngroto sub-village. The main road in the province has been completely covered by mud, causing it to disconnect the access to several area such as Girimulyo, Samigaluh, and one other village.

Local government established an emergency barrack at the village hall. GNI has held a coordination meeting to accommodate the objectives to assist management with other officials Local authority KSB (Kampung Siaga Bencana) distributed daily need such as clothing and kitchenware to the severely-damaged-house victims. As GNI and Village authorities had discussed, they agreed upon several outcomes. Village authorities have mentioned that other local parties had sent aids (except for rice), thus GNI sent over other item such as pairs of boot(s); drinking water; emergency lantern; mosquito repellent;, food ingredients such as rice, veg oil, and other ingredients; toiletries; medicine such as anti-diarrhea medications, essential oils, and flu medications; and kitchen appliances such as pots, pans, and gas stove for the emergency kitchen.

## We Are Dreaming Again

Gugah Nurani Indonesia conducted eight emergency relief actions in 2017, including early response to natural disaster, road reconstruction, and post-disaster response such as delivering food supplies. We also provide psychological first aid for the children in the affected area such as in Pidie Jaya District, on January 23rd 2017, while particularly in Rawasari and Raya Village we distributed hygiene kit for children. The psychosocial support is usually surpassed by other urgent necessities, which in contrast it was essential for the children/juvenile to retain their emotional stability after the disastrous event. We support the children who had lost their homes and families to overcome the psychological and emotional difficulties/ burden as soon as possible.

# FUNDRAISING PROJECT & CAMPAIGN ACTIVITIES

GNI was established in 2008 and ever since has driving force to make a change for the Indonesian society concerning community relief and development. It has been also leading some innovative campaigns and building awareness among people for international solidarity, social justice and child protection. In 2017, GNI adapted the Good Neighbors International Global campaign and successfully extended the Global Citizenship Education program to Child Empowering Service. It also ran various projects to raise awareness on global poverty and children's rights, encourage the public to join the activities through donations and voluntarily work. In 2017, Gugah Nurani Indonesia Local Fundraising was able to support several projects. We are very grateful to Indonesian donors and partnerships for all these supports. In addition to support GNI PAUD Project in Manggarai Barat and 20 stoves in Borong, NTT, Indonesian donors sponsored nearly 250 children throughout Sukabumi, Deliserdang, Bogor, and Borong CDP, providing them with tuition, books, supplies, meals, medical assistance, and more.

## Hope Letter Campaign

GNI has been carrying out the Hope Letter Campaign since 2009 to encourage students to become members of one harmonious world society respecting diversity in mutual solidarity. In 2017 there were 1000 students from 2 schools took part at the fifth session of the Hope Letter Campaign. The participants were invited to write a letter of hope to Egi, a young boy living in Borong, NTT and for children in Bogor. 11 participants were selected to visit GNI Bogor CDP, meet sponsored children and do some voluntary work.

## PAUD Project

The PAUD Project is a whole-year campaign to provide school buildings for children in Manggarai Barat CDP that struggle with limited access to education facility. GNI

conducted various advocacy and fundraising activities to raise donations & awareness on the importance of Early Childhood Education during 2017.

## Charity Concert

FEBC Charity Concert took place in April, 2017 at Usmar Ismail Hall in Jakarta. Gugah Nurani Indonesia was the charity partner of the event. This event was organized by FEBC youth community. This became an unforgettable as it brought together over 500 musicians and guests. It was also hosted by Indonesian-Korean Community. At the event, Gugah Nurani Indonesia raised funds for our PAUD Project in Manggarai Barat, NTT (East Nusa Tenggara), and shared our rebuilding efforts by showing a video presentation and displaying a photo gallery capturing our project in Manggarai Barat CDP.

## Indonesia Tourism Development Center CSR Program

GNI & Indonesia Tourism Development Center cooperating management to assistance program of birth certificate In the village buffer of "special economic zone" tourism mandalika.

Through the program, we expect that the ownership of birth certificate is able to:

1. Support children to be easier for accessing school activities such as: scholarship, school enrollment procedure, etc.
2. Prevent early marriage case because no institution is able to manipulate the age of the children
3. Support children in the future when they apply for a job
4. prevent divorce among the parents, because divorce affect to neglect of child's welfare

# APPROACH TO ACHIEVE CHILD WELL BEING THROUGH PARTNERSHIP & ADVOCACY

GNI Partnership & Advocacy framework has further focused on the realization of structural and long-term changes through the promotion of partnerships and alliances with civil society to strengthen their capacities, coordination and active engagement in decision making processes at different levels. Increases through careful analysis of local context and the understanding of local context socially, culturally, politically and economically.

Other element that contributes to sustainability of project outcomes are identifying and testing best practices and creating models that can be replicated in other areas or by other actors after project completion. One way to strengthen local civil society and thus create sustainability is by having a “learning partner”. This has not only contributed to a further alignment of our projects with the sustainable development approach but also to evidence based programming.

We have further strengthened the engagement of government bodies, communities, partners and other stakeholders in our projects from the inception phase (ex. baseline study processes and validation workshops), which has already shown positive results in enhancing the ownership of different stakeholders and their long-term vision for structural change.

GNI has also been concerned in budgeting in order to avoid creating dependency between actors. Taking the lessons learn from the previous partnership & advocacy framework into consideration, efforts have been made to systematically integrate sustainability into the project cycle management of current programmes

Post-intervention studies and learning from them is key in ensuring sustainability in the future projects to achieve child well being approach by :

- Focuses GNI's programmes on contributing to sustained well-being of children, including GNI's child well-being targets, and thus is a key vehicle helping a national office put its strategy into action brings together good practices in GNI, including development, disaster management, advocacy, partnership, sectors, and design, monitoring and evaluation (DME)
- Integrates sponsorship as a core part of programming.
- Empowers communities and local stakeholders to work together towards child well being,
- Builds the local leadership and ownership essential for sustainability development
- Supports effective participation of children and youth in efforts to improve child wellbeing in the short term and the long term
- Embeds learning throughout the programming process, building on and integrating.

## Gugah Nurani Indonesia Joint Civil Society Organizations Alliance On Ending Violence Against Children

Gugah Nurani Indonesia together all alliance members collaborate to:

- Support the secretariat of CSO Alliance to accelerate the advocacy work on enacting of legal instrument and aligning joint agenda with key Ministries
- Produce and disseminate promising practices book on prevention and respond to violence against children
- Build the capacities of CSOs Alliance members on EVAC related to INSPIRE agenda for Pathfinder countries, through participating in webinars, exchanging forum and seminars/ training organized by UN agencies/ GO/NGOs, and facilitate children consultation for Voluntary National Review of SDGs implementation that will be contributed to High Level Political Forum 2019

## Support The Ministry of National Planning Agency Consolidation of Civil Society for SDGs

GNI Involved in Process of formulating the National Action Plan of SDGs in Indonesia. The Agenda of this meeting is very necessary for GNI Action Plan because we work base on UN Child Right Convention & Sustainable Development Goals (SDGs) particularly by exposuring of Ministry of National Planning Agency strategy related to National Action Plan of SDGs and Filling the Action Plan Matrix by All Participants from Indonesia Civil Society Organization.

## Training and National Workshop Preparation of Alternative Reports to the Rights Committee UN Child Right Convention

The purpose of this stage is to make future plans related to the steps of the GNI & Indonesian Child Proclamation Network to prepare an alternative report to the Committee of UN CRC by Identifying child issues that will be the focus in alternative reports by Review the Indonesian Government reports on Period 5 and 6 in 2019, Conduct legal review, policy and review program and exercise writing: draft the report with attention to the guidance of report writing from the Committee.

# GNI Partnership & Advocacy

## Ministry of National Planning Agency Conducted Focus Group Discussion National Strategy for Handling Non School Children

GNI get connection in handling Non-School Children case in CDP with the Policy Direction of the National Middle Term Development Plan (RPJMN)2015-2019 to ensure the fulfillment of the right of the population to obtain quality education services to the level of secondary education.

Bappenas in cooperation with UNICEF implement the National Strategy of Handling Non-School Children (Stranas ATS). Therefore, to confirm the role of GNI as Non Government Organization in the data collection and / or handling of Non School Children in Indonesia

## Children CRBP in Palm Oil Plantation discussion series

ICCO (Interchurch Organisation for Development Cooperation) together with local partner PKPA (Pusat Kajian dan Perlindungan Anak) selected ten villages at palm oil plantations to start with implementing the Child Right Business Principles (CRBP) based on the UNGPs (United Nation Guiding Principles).

ICCO and PKPA translated these into a Child Rights and Corporate Social Responsibility (CCSR) guide. PKPA engages with palm oil companies and local communities to discuss the daily difficulties in the villages. E.g. the use of child labor by the parents, low income, lack of children's facilities and so on, aiming to eliminate the worst form of child labor and to create child friendly villages. GNI together with Civil Society Organization partners will check and see if the situation of families at plantations, including respecting child rights, will really improve with these commitments of Sinar Mas. However, we see this as a promising start and we will continue to work with companies who are open to positive change.

# Community Partnership & Network Building

# 1,034

## Beneficiaries

Gugah Nurani Indonesia support the Community Development Committee (CDC) for local residents to take initiative in the development of their communities while ensuring sustainable development for communities through agreements with local governments, related groups, and national organizations.

## Mobilizing Resources for Effective Services

Yayasan Gugah Nurani Indonesia continues to maximize budget distribution efficiently and effectively by promoting public private partnerships and crowd funding strategy in order to get support development in various field of our work.

Other potential sources of financing for development in Project implementation are funding from philanthropy and business actors, donation from Indonesian donor (sponsor), as well as social funds.

The amount of contributions from philanthropy and business actors will be documented in the matrix of action GNIs at both national and local levels, so that it can be measured, monitored and evaluated as part of the achievement of the community development goals in GNI Project.

To support activities that are in line with sustainable development, Yayasan Gugah Nurani Indonesia has developed “Increasing Local Role to Global Community” Strategic and Action of GNI.

Challenges in the mobilization of domestic resources include, among others, unsustainable business activities, programs inefficacy and the inability of multi funding resource such as Grant, CSR Program, etc to fully reach the designated beneficiaries. Thus, mapping of all CSR activities that support sustainable development program is needed in order to create synergy

# Child Empowering Services Project

# 6,067

Participant

- 1,146 children protected from potential abuse
- 998 teenagers are equipped with education to prevent child abuse

# National Children Day Celebration 2017

# 3,660

Participant

Gugah Nurani Indonesia has made various efforts to protect human rights of child and women suffering from injustice and discrimination. We are working to bring changes not only in the awareness of people but also in government policies by providing education as well as lobbying on children's rights, social development, gender equality, and child abuse prevention.

## GNI National Children Day Celebration 2017

In collaboration with Miwon Group Indonesia, GNI packed events ranging from dance and vocal group competitions for children. In this event there was a special arena of traditional games, such as main egrang, balap bangkiak,. The concept presented by the committee, especially through traditional game contest.

There were hundreds of children participated from around Medan, as well as from outside Medan, such as Deliserdang.

This event was also attended by several parties, ranging from the envoys of the big family of Deli Sultanate, Medan city Chief of Police, Pusat Kajian Perlindungan Anak and Dinas Pemberdayaan Perempuan dan Perlindungan Anak Sumatra Utara Province.

# SPECIAL REPORT

## Child Deliberation of Regional Development Planning (Musrenbang Anak)

Thursday, 24 August 2017, Gugah Nurani Indonesia, represented by Antok Setiawan (GNI Bogor CDP Manager) attended a workshop "Participation of Children in Musrenbang" which was opened by the mother of Lenny Rosaline (Deputy Growth of Child Ministry of Women Empowerment and Child Protection), he explained about some Indonesia Layak Anak (IDOLA)/ Indonesia Child Friendly Country is targeted to be achieved by 2030.

Presented by Deputy Minister for Human Development - Society and Culture, Bappenas. The government has involved the participation of children through the National Children's Forum. Directorate General of Community Development, Ministry of Home Affairs, Directorate General of Development and Empowerment of Village Communities, Ministry of Village/ Pembangunan Daerah Tertinggal, dan Transmigrasi also provides exposure on the role of children in Musrenbangdes Deliberation Development Planning

During discussion session, the children participants from the Sigi Children's Forum, Sikka-Ambawang District, expressed their desire to participate in Musrenbang because they had not been involved in village planning / meetings to propose their needs.

However, there is a problem in the involvement of children in the musrenbang concluded by the discussion, namely: almost all Children Forum do not have a sustainable mechanism and lack of knowledge in planning.

Closing the workshop, Sigi village government, states the positive thing about children's involvement is: children will be more responsible and maintain a village-related program of children and play an active role or learn to express their opinions / rights.

Challenges and expectations facing Children's Participation in Musrenbang is how the outcome of this child's aspirations can be absorbed and followed up after the musrenbang and how the information reached the child about the success or absence of the aspirations of the musrenbang

After participating in the workshop, Yayasan Gugah Nurani Indonesia Bogor CDP distributed the module "TOF Assistance for Children in the Musrenbangdes Process" and the module "Involving Children in Musrenbangdes" then tried to practice same things in the module and later the results obtained from the practice to be brought into the forum child.

Child participation is not born from activities that make children as decoration, (tokenism) or as a mouthpiece for adults to express their interests. Child participation is not born from an event shortly after the child is informed of his rights. There is a process that requires a learning environment, educational steps that do not see the child as an empty deposit or bank account open for knowledge by the adult. Child participation is not about the ability of children to speak publicly, to dance in public or to express their views in public. But his ability to change himself and his environment.

# GNI SPONSOR CHILDREN & FAMILY PROFILE

## Hilal Rusdi's Profile

Hilal Rusdi is one of Gugah Nurani Indonesia's sponsor children who excel in the field of sports Taekwondo. His friends used to call him Ilal. Hilal was born in Jakarta December 2, 2013. Hilal is registered as GNI sponsored children since February 17, 2013.

### GNI support him with:

- Financial Support (in school fee)
- Food Distribution
- After School (Taekwondo)
- Home Visit
- Educational Materials Support
- Feeding Program
- Medical Check Up

Hilal aspires to be a Taekwondo Athlete, in realizing his aspirations hilal has been active in Taekwondo activities for 4 years starting from grade 4 SD until now.

### Achievements in Taekwondo activities:

- 1st Winner in the POPWIL Championship
- 3rd Place in the POPROF Championship
- 2nd Winner in Taekwondo Championship among students in DKI

Now Hilal has reached the blue of Taekwondo belt levelbelt and is determined to continue practicing until it gets a black belt and gets to National Training Center (Pelatnas) .

Rozak, 47-year-old, who is Hilal Rusdi's father is famous as a hard worker, honest and helpful person.

Equiped with high school education, he do some work to meet daily needs by trying various jobs, finally he find a suitable job, the rubbish bank, the program which supported by GNI. He has been working for eleven years now.

He is grateful eventhough he is working in a business that is often underestimated, he finds comfort and can meet the needs of the family. Hilal's mother helped sustain the family economy by selling traditional snack.

He realized that taekwondo is a good sport, improving his child's emotional intelligence. Despite being in the category of sport that cost a fortune, but he did the best.

They feel grateful to GNI for helping to develop the talents of their children by helping to finance them. Because if it can be honest, they are only able to meet about 10-15 percent.

He is grateful to have children who excel in academics and also sports. Eventhough he is still full of limitation but it's not prevent to share with others.

He is motivated to involved in this program to provide the awareness for the community that the waste also has a value and can make the village cleaner.

Nowdays still there many obstacles, but he is optimistic in the future, that Rubish Bank can grow better. He believes that everything needs a process and in every process there must be something that we could learn in order to achieve perfection.

## INDEPENDENT AUDITOR'S REPORT

Report No. 18312-A3Y/JMM4.JY4

The Country Director  
**YAYASAN GUGAH NURANI INDONESIA**

We have audited the accompanying Financial Statements of **Yayasan Gugah Nurani Indonesia** (the Foundation), which comprise the Statement of Financial Position as of December 31, 2017, and the Statements of Activities and Changes in Net Assets and Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these Financial Statements in accordance with Indonesian Financial Accounting Standards and for such internal control as management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants (IICPA) and International Auditing Standards (ISA). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the Financial Statements referred to above present fairly, in all material respects, the Financial Position of **Yayasan Gugah Nurani Indonesia** as of December 31, 2017 and the Changes in its Net Assets and Cash Flows for the year then ended, in accordance with the Indonesian Financial Accounting Standards.
